ABSTRACT:

Display bag for shoes or the like consisting of two bellows pockets 1 and 2, made of flexible and transparent material, securely fastened to a rigid planar frame 3, the said pockets being automatically closed at their top by the hanging strap 4 which slides simultaneously in the eyelets 5 and 6 of the rigid panel 3 and the eyelets 7 and 8 located at the top of each pocket; the flexible flap 11, which is securely fastened to the panel 3, capable of being folded over the pockets 1 and 2 and of bearing on its outside the advertisement of the seller.

Display bag capable of being used for displaying objects for sale such as shoes, for delivery and storage at the customer's home.
